Notice of Revisions of Financial Result Forecasts

Roland DG Corporation (hereinafter, the “Company”) hereby announces the revisions of the consolidated financial result forecasts released on February 9, 2018, in consideration of the recent trends in financial results, as follows.

1. Revisions of the consolidated financial result forecasts for the fiscal year ended December 31, 2018 (January 1, 2018 to December 31, 2018)

(Millions of Yen unless otherwise specified)

	Net sales	Operating income	Ordinary income	Profit attributable to owners of parent	Net income per share (Yen)
Previous forecast (A)	43,600	3,400	3,200	2,200	175.67
Latest forecast (B)	42,770	4,250	3,970	2,880	229.53
Difference (B－A)	(830)	850	770	680	－
Difference ratio (%)	(1.9)	25.0	24.1	30.9	－
(Ref) Performance of the previous fiscal year (the fiscal year ended December 31, 2017)	43,573	3,853	3,804	1,918	153.19

2. Reasons for revisions

Net sales are expected to be lower than forecast due to sluggish sales of printers in the sign market, a major printer market, despite a sales increase in the dental market, which is one of the growth areas. Operating income is revised upward, mainly due to lower selling, general and administrative expenses than expected, mainly as a result of lower personnel expenses and advertising and promotion expenses. In reflection of this, ordinary income and profit attributable to owners of parent are also revised upward.

Note: The above forecast is based on information available to the Company and the group at the time of the document’s release. Actual results may differ from the forecasts presented herein for various reasons.
