Notice of Revisions of Dividend Forecasts

Roland DG Corporation (hereinafter, the “Company”) hereby announces that it has resolved at the Board of Directors Meeting held on May 9, 2017 to revise its dividend per share forecast as follows.

1. Reasons for the revisions

As its basic policy on dividend, the Company aims for a dividend payout ratio of 30% by returning profits based on performance, while also taking into account the future of its business development.

The Company has revised downward its financial result forecasts for the first six months ending June 30, 2017 and the fiscal year ending December 31, 2017, in anticipation of a harsh business environment in the future as stated in the “Notice of Revisions of Financial Results Forecasts” separately released today. Consequently, the Company has decided to revise its interim and year-end dividend forecasts for the current fiscal year from the initial forecast of 35 yen per share to 25 yen per share each based on the aforementioned basic policy, resulting in an annual dividend of 50 yen per share.

Please note that the Company will exclude the settlement package recorded under extraordinary losses in the first quarter in calculating dividend for the current fiscal year since it arose from past events.

2. Summary of the revised dividend forecasts

	Dividend per share (Yen)		
	2nd quarter end	Year end	Total
Previous forecasts	35	35	70
Current forecasts	25	25	50
Results for the current fiscal year	/	/	/
Results for the previous fiscal year (the fiscal year ended December 31, 2016)	30	30	60
